

# SETTLE IT YOURSELF -- IN ONE DAY.

Whether you owe money or someone owes you money, you can settle the matter -- finally and legally -- in as little as one day by using One Day Decisions. **Filing a case costs nothing** and there are no charges until *both* parties agree to use One Day Decisions.

"The Small Claims Court system is broken," says Judge Philip Estrin (ret.)

**All you need to initiate your case are these three items:**

- The other party's *real* first and last name .
- The other party's *real, direct* e-mail address.
- The other party's *real, direct* phone number.

Next, go online to *OneDayDecisions.com*, create your **free account** and start your New Case. Describe your case as specifically as you can, *especially the dollar amount in dispute* (You don't need any receipts, photographs or documents, but if you want to upload some, you can).

If you *owe* money, enter your secret *maximum* amount you're willing to pay.

If someone *owes you* money, enter the secret *minimum* amount you're willing to accept.

Be sure to **hit the red SUBMIT button** to send the case in. We'll take it from there.

If you owe someone money,  
you're *guaranteed* a discount.

If someone owes you money, *you can get*  
*paid in 10 business days.*

When the other party agrees to join the process, One Day Decisions will charge a very small, one-time, non-refundable fee, between 4% and 6% of the settled amount, depending on the amount (as low as \$19) which **you pay by credit card**.

Then **watch your e-mail** as we keep you informed about the progress of your case.

No court.  
No judges

The fastest way to settle without court, collections or credit damage.™

No lawyers.  
No collections.

You'll have *up to three rounds* to accept or reject the settlement amount suggested by One Day Decisions. Each time, an e-mail will arrive with a link to the One Day Decisions site, where the settlement amount will be presented for your (and the other party's) acceptance. *Both of you must accept the amount in order to settle the matter.* You can always reject the suggested settlement amount, but be smart:

*You only get three rounds and the next one might not be as good as the last one.*

Most people accept the first or second round, but your third round is the absolutely *last chance* for the two of you to accept and settle. If you don't, you could end up in court or collection for months -- and the possibility of some serious credit damage.

When you *both* accept the settlement offer, a Certificate of Final Resolution is created, documenting the final, legally-binding, irrevocable settlement for both of you. The amount is paid securely by credit card or online check at *OneDayDecisions.com* and within ten business days, a check is sent from One Day Decisions to pay off and settle the matter permanently.

Settling a monetary dispute really can happen *in as little as one day*. But you have to start now, by going online to *OneDayDecisions.com*. The fastest way to settle without court, collections or credit damage.™

No court.  
No judges.

No lawyers.  
No collections.
